Riciclare vecchi e inutili capi in nuovi pezzi creativi è entusiasmante. Con i nostri prodotti Vlieseline®, i jeans consumati possono trasformarsi in abiti nuovi, cuscini, coperte e paralumi. Riciclando tessuti usati, riduciamo la produzione di nuovi materiali, creando così meno rifiuti e proteggendo l'ambiente.

L'ovatta decorativa Vlieseline® può essere utilizzata per riempire un vecchio indumento, trasformandolo in un cuscino pieno e soffice. Le imbottiture Vlieseline® possono essere utilizzate per aggiungere bellissimi effetti 3D all'esterno del cuscino. Il nostro nuovo prodotto 276 Natural Cotton White è l'ideale soluzione per patchwork e quilt e per confezionare giacche leggere, specialmente quelle con tessuti chiari.

Upcycling and recycling seemingly useless, old garments into new, creative favourite pieces is all the rage. With our Vlieseline® products, worn-out jeans can be transformed into like-new dresses, pillows, blankets or lampshades. By recycling used outer fabrics, we reduce the production of new materials, thus creating less waste and protecting the environment.

Vlieseline® decorative wadding can be used to fill an old garment, resulting in a full, fluffy pillow. Vlieseline® battings can be used to add beautiful 3D effects to the outside of the pillow. Our new product, 276 Natural Cotton White, is the ideal solution for patchwork and quilting and for use with light jackets, especially those with light-coloured outer fabrics.
