Waist-Shaper is a waistband for skirts or trousers. It is available in width of 2,5 cm, 3 cm and 3,5 cm. The perforated line saves the need for marking and chalking and serves as a guideline while sewing. The band retains its shape.

Apply the coated side to the waistband strip with a dry iron. Glide slowly over each area 5-6 times step by step, and press firmly, so that each area is exposed to the heat for about 8 seconds. Iron setting: Wool. Allow the pieces to cool flat for about 20 minutes, so that the adhesive can set properly.

Before you start, we strongly recommend that you make a small sample with your iron first to make sure that the bond and the handle meet your expectations.

Furthermore, Waist-Shaper can be used for exact processing in bag handles.
