LAMIFIX MATT/GLOSS

THE WIPEABLE IRON-ON TRANSFER FILM

one brand
one quality
one world

45 cm x 15 m // 100% PES-Film // white transparent // Wet cleanable – DO NOT WASH!

Vlieseline® Lamifix matt/gloss are fusible, transparent and wipeable iron-on films.

Vlieseline® iron-on films are especially suitable for creating flat-lying works, for example place mats, coasters or other creative textile works, in order to protect the fabrics and materials used from getting dirty.

Vlieseline® Lamifix matt/gloss can be wiped with a damp cloth; do not wash!

Lamifix matt is placed with readable edge print side facing upwards on the right side of the fabric.

Lamifix gloss is placed with the glossy side facing upwards.

Both films are ironed with low temperature and short fusing time! Re-iron the film at any time if necessary.

PROCESSING

HOW DO I USE LAMIFIX MATT/GLOSS PROPERLY?

FUSION INSTRUCTIONS:

- > LAMIFIX MATT with readable edge print side facing upwards on the right side of the fabric.
- > LAMIFIX GLOSS with the glossy side upwards on the right side of the fabric.
- > Cut the film generously and iron on the fabric lightly first, then cut out precisely.
- > Afterwards cover with a dry cloth and iron on the film completely. Make sure to move the iron from the middle of the work to the edges with a light pressure ( -  , 8 seconds).
- > Let it cool down well.
- > , 

TIP: Start to cut out LAMIFIX MATT from the unprinted edge, so that you can see on the leftover from which side you have to iron.
